**San Francisco, April 21.--It is estimated that more than 150 people were burned to death last night in the vicinity of Telegraph and Russian Hills and on Union Street. While the fire was raging the people were cut off from retreat. In twenty buildings bodies have been recovered. Two babes were found where they had been dropped in mad flight.**

# MENACED BY PLAGUE!

## Smallpox and Other Dread Diseases Break Out Among the Refugees

SAN FRANCISCO, April 21.—This city is threatened with another plague after the horrors it has had. Smallpox and scarlet fever have made their appearance and the entire city front will have to be quarantined. Among the refugees that have taken shelter in this city and Berkeley there have been several cases of smallpox reported. There are three cases in Berkeley. Heroic measures will be taken by the corps of medical men to prevent the dread disease from obtaining a foot hold. The unsanitary conditions that naturally prevail is given as the cause. With proper medical supplies and tents to live in it is hoped that in San Francisco the disease may be checked.

# WATER-FRONT IS WIPED OUT!

SAN FRANCISCO, April 21.—The entire water front has been swept away by flames. While the ferry building still remains intact, the fire authorities have warned the people that it is anything but safe. It may topple over at any moment if a stray wind came up. All along the front the grain sheds are piled on the docks and the wharves and piers are crack-

ed, smashed and twisted out of shape for practical use. **SWEPT BY FLAMES.** During the night the all-devouring flames swept from the top of Telegraph Hill down to the level, where the lumber yards stood. Thence they whirled out towards the military reservation, where over twenty thousand men, women and children are encamped. For a time there was fear that

the blaze would get the few remaining houses along Bay street and at the foot of Van Ness avenue. But they finally quenched themselves apparently from exhaustion. **MENACED BY OIL.** Some feared the heat from the hills above the beach might ignite the great oil and gas tanks near Meigs wharf. Had this occurred thousands would certainly have been killed by resulting ex-

plosions. But, thank God, the flames failed to affect these oil and gas vats. Today many people have come down town to view the spectre of the business portion of San Francisco. Where the great skyscrapers and massive warehouses stood, hills of ashes and bent and twisted pillars of iron alone remain. Here and there the portion of a wall remains in sufficiency to indicate the character

of the structure of which it was once a part; but that is all. **BANKS TO REOPEN.** The banks are doing everything in their power to reopen. The Union Trust Company's vaults are in splendid condition. The safe deposit annex is also reported safe. In fact, the clearing house people say that a considerable portion of the money on deposit in commercial and saving institu-

tions will be available in a few days. Many of the big business concerns are wiring to their Eastern representatives for ready money, in order to begin again with least possible delay. The heads of a number of the agencies for large Middle West, Eastern and European concerns have received assurances that everything possible will be done to rehabilitate the San Francisco

end of their ventures. **TAKING HEART.** So it is at least comforting to know that the outside world has not had its great confidence in the future of this once great city shaken. The people of San Francisco are taking heart. With the dawn came plenty of provisions for the vast multitudes who have been relieved of food and shelter by the fire. **PLENTY TO EAT.** In all of the parks and squares (Continued on Page 2.)

# 25,000 MORE PEOPLE ARE HOMELESS!

BY C. E. WILSON OF THE TRIBUNE STAFF.

SAN FRANCISCO, April 21.—Every dwelling except those perched on the pinnacle of Telegraph and Russian Hills were swept away by a fire yesterday afternoon, which was once seemingly under control. This makes the devastation of the city from Van Ness avenue eastward complete. The fire finally reached the water front and destroyed about three-quarters of a mile of wharves. The flames are now in check and the re-

mainder of the water front as well as the ferry building is safe. The fog end of the conflagration which lapped the two highest hills in San Francisco was the most disastrous probably from the standpoint of life. Twenty persons were buried in Washington Square this morning, and ten bodies yet remain to be interred. Only a few names of the dead are ascertainable. They are: FRANCIS MERCIER.

EMELIA MARCO. DOMERICO DELUCCI. POLONILLI (male). N. A. HUSTED. The others are unrecognizable. **25,000 MORE OUT OF HOMES.** The fire of last night rendered 25,000 more without homes. It was one of the fiercest of the four days' reign of terror. It circled around the two hills with a shrouded which suggested a fiery monster snake which was slowly

wrapping its victims within its constricting coils, to crush them to death. With the rapidity of a forest fire the flames circled round and round. In an indescribably short time the inhabitants were all but cut off from escape. Many were driven to the summits of the hill, where they huddled, hoping against fate that they would escape the most horrible of all deaths. If the prayers they uttered were of avail they must have been answered,

for at the very crest of the hills the fire ceased, leaving a few houses intact. Many of those who plunged toward the bay in flight were caught by the flames. Their bodies were discovered this morning and gathered together at Washington Square. Thousands whose desire for safety was more than their desire for the saving of personal property escaped before the flames reached them. They were aided from the shore and water

front by the United States marines and also the sailors from the craft anchored in the bay. All the efforts to fight the fire in this vicinity proved unavailing, and a real stand was not made until the water front was reached. Here six fire tugs fought the raging blaze for about three-quarters of a mile, when the fire was finally checked. The ferry building last night was reported destroyed, but this report is untrue. The flames were checked in

the vicinity of Lombard street. Dynamite was freely used in blowing up wharves and docks, but the fire, with a persistency that was diabolical, leaped over the intervening spaces and continued in its mad career. The lumber piled along the wharf, and also the oil tanks, added fuel to the fire, and at one time even the firemen gave up, and the whole water front seemed doomed. There are many wharves and ships left intact and will be put in readiness at once for the accommodation of shipping.

# THE TRIBUNE WILL BE ISSUED ON SUNDAY

# BANK COMMISSIONERS FIND BANKS IN EXCELLENT CONDITION

## Measures Will Be Taken to Provide Money at Once for Immediate Pressing Needs—All Banks in the State Closed Temporarily.

The first authoritative statement of the financial outlook can now be made. The Bank Commissioners find financial conditions much better than they expected, consider them excellent, in fact, and such as to warrant public confidence in a speedy and satisfactory adjustment of the banking machinery throughout the State.

The Commissioners are in continuous session and are consulting with bankers all over California, and making a thorough

investigation of the monetary situation so as to be fully informed before deciding upon a definite plan of action. They have the situation well in hand, and have no fears of the result. Measures are being taken to have cash released from the United States Mint on telegraphic order, as soon as the banks reopen for business.

The Commissioners recognize that the monetary situation affects the entire State, and are therefore opposed to the

reopening of any bank in California till a plan has been matured that will meet the interests of all concerned, it being their opinion that the interests of the general public are a paramount consideration in this exigency. No precipitate action will be permitted that is likely to create complications or hinder an adjustment which will restore confidence and protect all interests.

At half past ten o'clock Monday morning the San Francisco Clearing House Association will meet and discuss the local condition, and be prepared to submit

as comprehensive report when the State Clearing House Association meets in Oakland on Tuesday, at 2 o'clock p. m., as can be made in advance of opening the vaults, which have all been found to be uninjured, which insures the safety of their contents.

When the State Clearing House Association meets on Tuesday the general situation will be discussed and steps taken to formulate a line of future action subject to contingencies and developments. It can be stated that the Commission find the

banks throughout the State in excellent shape.

It is realized that the most pressing need is to provide a supply of ready money for immediate necessities, and steps will be taken at the earliest practicable moment to relieve the temporary stringency caused by the closing of the banks pending a general adjustment to meet all conditions. It can be stated, however, that a way will be devised to relieve the most pressing monetary needs. Money is flowing in from every direction in the meantime, and as soon as plans

and rules applicable to the banking situation of the entire State can be formulated, there promises to be an abundance of cash for all commercial needs. But it will take some time and thought to perfect a policy adjusted to all interests and localities. A channel will be provided for placing a certain amount of money in circulation to supply immediate necessities.

Physical obstacles will necessarily delay the opening of the vaults of the San Francisco banks, and it is recognized that no plan of action can be decided

on till the vaults are opened.

The Commissioners are keeping the Governor fully advised at every stage of development, and whatever steps they decide to take will be with his full knowledge and concurrence. And as the State banks are under the jurisdiction of the Bank Commissioners they will all be compelled to abide by any rule formulated by the Board. The National banks are in thorough accord with the State bankers, and can be relied on to co-operate in all measures prescribed by the State Commission.

## FIRE UNDERWRITERS HOLD IMPORTANT MEETING TO CONSIDER FIRE LOSSES

An important meeting of the San Francisco Board of Fire Underwriters was held this morning at what will now be its permanent headquarters at Reed's Hall at Twelfth and Harrison streets. The sense of the meeting was that the impression should not be given out that the insurance companies had money to throw away or that any losses would be paid until they had been properly adjusted and only such losses as the companies are responsible for will be paid.

This matter was brought to the attention of the board by Rolla V. Watt, manager of the Royal and Queen insurance companies who said: "I met Mayor Phelan on the street yesterday and he asked me to get some sort of a notice given out to the public that their losses would be paid. I do not believe that this is the proper thing and I told him so. The companies I represent will pay what they are liable for and no more and it is better for those whose spirits are drooping to allow them to drop rather than to buoy them up with false hopes."

**DISTINCTION AS TO LOSSES.** The sentiment was generally concurred in. From the remark made there is no doubt that the companies will draw a fine distinction between the general loss and that by fire and will only pay for what was actually burned. The question of property destroyed by dynamite was not touched upon and will probably be the cause of endless litigation.

The question of chimney inspection throughout the cities of Alameda, Oakland and Berkeley was another matter brought up by Watt who stated that he believed that he was confident that the San Francisco Board of Supervisors would pass an ordinance prohibiting the use of any chimney until it had been inspected.

"People are using chimneys throughout the cities on this side of the bay that are dangerous and liable at any time to start a conflagration," he said. "And I will make a motion now that our inspectors be put to work inspecting chimneys, and also notify all of our policy holders that the companies will not be responsible for any fires until such time as their chimneys have been properly passed upon."

The suggestion of notifying the policy holders brought forth a general laugh, and he was asked how this was to be done with their books all burned.

"Oh, well, I thought you had your lists," he rejoined. "I have mine and all complete."

**INSPECTING CHIMNEYS.** The matter of inspecting chimneys, however, was considered important,

and it was moved and carried that this action should be taken, and this work will be immediately inaugurated.

The meeting was called to order by President G. W. Spencer, who announced as soon as the roll had been called that the first business before the board was the report of the committee appointed yesterday to take action and make such suggestions as it deemed would be for the benefit of the association.

Whitney Palache, chairman of the committee, then took up the work of the committee and stated that one of the first things the committee would say would be that there be no hurry about adjusting any claims.

This is a matter in which we are all interested, he said, and the committee would suggest that if there are any questions asked as to when loss will be considered that the reply be made that nothing definite at present is known. We believe that there should be a uniformity of action. It may be days and perhaps weeks before we can be thoroughly advised as to the situation and it would be well for us to move slowly.

**HEADQUARTERS HERE.** The committee made a report recommending the establishment of headquarters here rather than in San Francisco, and in regard to this Palache said: "There was a suggestion that we secure the Appraisers' Building in San Francisco as headquarters, but after considering this matter the committee believes that we had better remain here. We do not know what the condition of San Francisco will be in regard to sanitary conditions in a few weeks from now."

This recommendation of the committee was adopted.

The question of mail was the next matter touched upon, and the committee recommended that all the mail be forwarded to the headquarters here.

Chairman Spencer asked if such a course was agreeable, and stated that if there were any present who would sooner have their mail sent elsewhere to announce it. One or two asked to have their mail sent to other places, but of the two hundred members present the rest will receive all mail at the headquarters.

**POSTOFFICE INTACT.** The announcement was made by Mr. Palache at this time that the interior of the San Francisco postoffice was intact and that Postmaster Fisk had men at work sorting out the mail that has accumulated.

The committee further reported that the services of a telegraph operator had been secured and that an effort would be made to have a special line to the headquarters for the transaction of business.

The local offices, it was stated, had telegrams filed now that would take twenty-four hours to send out, and many were being used to other lines to be sent.

The question of getting an accurate

## FIRE ON WATER-FRONT IS UNDER CONTROL

SAN FRANCISCO, Cal., April 21, 8:30 A. M.—The fire on the water front north of the ferry is now under control. It has burned as far south as the Lombard street dock, where it was checked and is now smoldering. The ferry depot and some of the docks in that vicinity, at this writing are safe. The rule of martial law this morning is not nearly so rigid, and in many of the districts the militia has been withdrawn and only sufficient guard left to prevent the possibility of theft or looting.

## \$1,500,000 Added to fund by Congress.

WASHINGTON, April 21.—Secretary Taft presented the need for additional appropriation for the San Francisco sufferers to the House Committee on Appropriations this morning, suggesting that \$1,500,000 more should be appropriated. To this the committee readily assented, and the appropriation will be made today. The Secretary explained that a special message from the President together with a letter of detail from himself, was on its way to Congress.

description of the territory destroyed, it was announced, was now being undertaken by Captain Constock, and it was believed that it would not be long before the board would be in possession of this information.

**WORLD NOTIFIED.** It was also announced by the committee that General Funston had allowed Mr. Palache to send out a description of the territory covered by the fire up to noon yesterday to Liverpool, by way of the Government wire at Black Point, so that the world would know and there would be no great haste for the local men here to try and get into communication with their home offices for this purpose.

A suggestion was made that any form of earthquake policies any of the companies may have written, be submitted to Attorney F. C. Osborn for inspection. At the conclusion of the listening to the report the business of the meeting came to an end and an adjournment was taken until tomorrow morning at 10 o'clock.

**Rheumatic... Makes Life Miserable.**

A happy home is the most valuable possession that is within the reach of mankind, but you cannot enjoy its comforts if you are suffering from rheumatism. You throw aside business cares when you enter your home and you can be relieved from those rheumatic pains also by applying Chamberlain's Pain Balm. One application will give you relief and its continued use for a short time will bring about a permanent cure. ## PARDEE WIRES TO WASHINGTON

WASHINGTON, April 20.—The California delegation is in receipt of the following telegram from Governor Pardee:

"OAKLAND, April 20. "California Delegation, care Hon. J. R. Knowland, House of Representatives: Thanks of people of California for Nation's generosity. Give my personal thanks to each member of delegation. Please tell Kahn that Mrs. Kahn is safe and well." Senator Perkins received the following telegram from Governor Pardee: "All of California applauds nation's generosity. Three hundred thousand homeless."

## TRANSPORTATION ISSUED FREE

The Rev. Thomas Filben, superintendent of the Methodist Episcopal Chinese Missions, has been appointed representative of the Relief Committee for the caring for the stricken and needy of the Chinese population.

Fred W. Prince, agent of the Santa Fe railroad, is located at the Ferry building and has been authorized by his company to issue free transportation to any point on the Santa Fe lines for any persons who desire to leave the city.

Superintendent Palamer, of the Southern Pacific Railroad, announces that that company will issue free transportation to any point within 100 miles of San Francisco, to needy persons who cannot pay their fare.

Frank J. Symmes, president of the Merchants' Association, has received the following telegram from the Merchants' Association in New York city: "Merchants' Association of New York city sends its sympathy to stricken people of San Francisco and proffers assistance upon any line desired. Advise us by wire of your necessities with suggestions as to any manner in which we can serve you. Our Board of Directors meets today to take action."

President Symmes replied that food supplies not requiring cooking were what is most desired.

James D. Phelan received a dispatch from Mayor Magidan, of Vallejo, this afternoon stating that the naval Young Men's Christian Association Building of that city with its 75 sleeping rooms has been set aside as a temporary hospital for the sick and wounded of this city; and that a corps of U. S. naval physicians and hospital stewards has been detailed from Mare Island Navy Yard to take charge of it. Mayor Magidan extends an invitation to the San Francisco authorities to send sick and wounded to the number of 65.

The press of work at general headquarters is so great that the Relief Committee announced this afternoon that it was in need of 25 to 50 stenographers and 50 to 100 typewriting machines.

## STEEPLES PULLED DOWN.

This morning the steeples of the First Baptist Church on Telegraph avenue and the First Unitarian Church, on Fourteenth street, which were injured by the earthquake, were pulled down by the Street Department. The toppling piles were considered a menace to the safety of the city.

## DISASTER STORIES

George Zelle, who had recently come into management of the Zelle Drug Store, at 225 Pacific avenue, between Montgomery and Kearny streets, had drawn \$300 in four bills to add some lines to the stock. "I drew them Tuesday, intending to make the purchases Wednesday. When I brought them home I handed them to my wife and said 'Put those in your stocking; we may need them.' 'What a blessing,' she said, when we found we had to get out."

**LAUNCHMEN LIED.** "One of the most outrageous things in the whole affair," said Harry Hartmann, of Diamond today, "was the way the launchmen lied to people. They told them the ferry boats were charging 55 and even 60 to take people over to Oakland. They told them all sorts of stories to the effect that the people could not get over by the ferries, and charged all sorts of prices for bringing people over."

"One man, Harry Crowley, promised to take me to the Hotel of the Pacific Hotel and his sick wife over. They were neighbors. But three Chinamen came along and offered him 100 apiece to take them over, and he took them and left his neighbor and his sick wife sitting there in the street."

**WIFE IN BABY BUGGY.** One man was seen on Friday pushing a baby buggy down Market street to the ferry.

**MISSED BY FIRE.** In the foundry district, where all the foundries and other buildings were burned, it is reported, stands a summer yard and shack untouched. In a house at Fourteenth and Valencia streets in the second story, lived Arthur Blaine and family. The earthquake tipped the frame house toward the street, and the family fled to the lower floor and two women who were in the room; but the house lodged on the telephone and the women and children and his family stepped out of the second story window onto the street.

**FREE BREAD.** A Berkeley baker is reported to have shipped 100 loaves of bread to the city on both Thursday and Friday, giving them away.

**STOPPED AT LOMBARD STREET.** Captain E. Alexander, of the Santa Rosa, arrived in Oakland at 9 a. m. Saturday morning, after helping all night to fight the fire along the docks. He reported it stopped in its southern progress at Lombard street.

**AT IDORA PARK.** Mora Park is "Happy Camp." That is what some of those there have named it.

The best of order, adults in comfort and children in happiness, plenty of food for all and good sanitary arrangements are its chief characteristics under the control of manager James Filling of the Idora Park Company.

Fourteen hundred people were fed last night. A list of seven hundred or eight hundred is posted at the entrance to the grounds. The women and children and sleeping accommodations in the theater, and the men in the dance hall tents and on the lawns.

More work is being done with less help than it would naturally be imagined were possible.

The principal helpers to Mr. Filling are the three Misses Wheeler of Moss avenue, Mrs. Fred Thompson, Miss McVey, and the Idora Park staff.

## TAKE TURNS COOKING.

There is an abundance to eat. Breakfast this morning consisted of meat, bacon, eggs and coffee. The men and women take turns in cooking and serving. Today is the men's day. All are being shown how to be helpful and orderly under trying circumstances, and are responding willingly.

In the Penny Arcade willing hands of many women are sorting over and fixing up the many clothes contributed by townspeople for any who may want them.

## WORK TO DO.

A Swift Transformation Briefly Described. About food, the following brief but emphatic letter from a Georgia woman goes straight to the point and is convincing: "My frequent attacks of indigestion and palpitation of the heart culminated 8 years ago in a sudden and desperate illness, from which I arose enfeebled in mind and body. The doctor advised me to live on cereals, but none of them agreed with me until I tried Grape-Nuts food and Postum Coffee. The more I used of them the more I felt convinced that they were just what I needed, and in a short time they made a different woman of me. My stomach and heart troubles were cured as by magic and my mind was restored and is as clear as it ever was."

## GOVERNOR MAY CALL A SPECIAL SESSION

Governor George Pardee at noon today gave the following interview, concerning a possible session of the Legislature and the postponement of the date for the adjournment of the Legislature. "Are you going to call a special session of the Legislature?" Governor Pardee was asked.

"I don't know," he replied.

"When will you know?" "I can't tell when that will be. I have not yet determined what I shall do in this regard."

"Will there be anything done in reference to postponing the date—next Monday—when taxes become delinquent?"

"I do not see how anything can be done," he said. "The Legislature, except by a special act of the Legislature. That body could scarcely meet in time, now, to take action before the date falls, but if it should meet later, I suppose some measure might be passed relative to it."

It is probable that a session of the Legislature will be called as soon as the excitement subsides.

## FIGHT FOR CHILD.

The only trouble at the grounds, and that something which attracts but little public attention, is the struggle of a mother, a grandmother and an elderly woman over the possession of a handsome little dark-haired girl, whom the grandmother claims was given into her charge by the court. She is the mother's mother. The mother is anxiously inquiring as to the safety of two other children in an orphan asylum in the Western Addition.

"No one here has any complaint to make," said an old German woman, as the TRIBUNE reporter left, and the knots of quiet people and playing children under the trees seemed to vouch for the truth of her statement.

## A Badly Burned Girl.

Or boy, man or woman, is quickly out of pain if Bucklen's Arnica Salve is applied promptly. G. J. Welch, of Tekoa, Mich., says: "I use it in my family for cuts, sores and all skin injuries, and find it perfect. Quickest pile cure known. Best healing salve made. Price 25c. at Osgood Bros., drug stores, Twelfth and Washington streets and Seventh and Broadway."

Rhodes Pacific Glass Company today opened temporary offices at 278 Bacon block.

## INVITE SAN FRANCISCO BUSINESS MEN HERE

At 9 a. m. today there was the largest assemblage of Oakland real estate brokers ever gathered in this city, called for the purpose of discussing the present situation in connection with the burning of San Francisco and its relation to our own city. The meeting was held in the Realty Syndicate building on Broadway. A. H. Breed was chairman and E. P. Miller secretary.

The utmost harmony prevailed, and the proposition that every effort possible should be made to locate here all classes of San Francisco business interests was heartily indorsed. Brief remarks were made by Chairman Breed, J. Miller, George W. Austin, Frank Havens, E. P. Vandercreek, John T. Bell, W. J. Layman, Frank Woodward, E. C. Sessions, James Naismith and others. The importance of offering desirable warehouse, commission and manufacturing sites in localities convenient to railroads and water facilities

was considered as was also the advantage to be gained by getting in touch with the real estate brokers of San Francisco.

Mr. Sessions called attention to the fact that the Oakland Harbor now has a channel of sufficient depth to admit the largest vessels that float.

The outcome of the discussion was that a committee of fourteen was appointed to open a central office for the listing of business sites by the various brokers and also by owners of such property, said committee consisting of the following:

A. H. Breed, chairman; W. J. Layman, John T. Bell, E. P. Vandercreek, George W. Austin, E. C. Sessions, Harry V. Belden, F. J. Woodward, James S. Naismith, J. H. MacDonald, A. J. Snyder, Charles Taylor, E. P. Miller, Max W. Koenig, F. F. Porter.

It was voted to effect a reorganization of the Oakland Real Estate Association, doing away with initiation fees and dues, and making eligible to membership all reputable real estate dealers.

It was also announced as the sense of the meeting that every effort possible be made by them to prevent an undue increase in rents or in prices of property.

It was stated by some large property owners present that they would make long leases on a basis of six per cent interest on present valuations.

The meeting then adjourned to come together again at one o'clock this afternoon.

## CENTERVILLE IS DESTROYED BY FIRE

CENTERVILLE, April 21.—Fire originating from unknown causes practically destroyed this town, which is thirty-five miles from Oakland, at an early hour this morning. The loss is \$50,000.

Every establishment of any prominence in the town was completely destroyed as well as a warehouse that had been filled with provisions that were to have been shipped to San Francisco for the relief of the fire survivors.

## ELKS HAVE PROVIDED FOR 1000 HOMELESS

The Elks have been among the first to provide for the homeless people of San Francisco and during the past two days nearly 1,000 destitute have been cared for and provided with food, shelter and clothing.

The tent city on Adams Point has been fitted up with every convenience and 700 tents shelter the homeless thousands. At 3 o'clock on Thursday afternoon the local lodge of Elks began its great work, the tents were put up, a hospital tent was provided, a dozen doctors and two trained nurses were at their posts, the club members and their friends worked like beavers and to complete their city of tents and protect the inhabitants from the peril of fever, sanitary arrangements were installed almost immediately.

W. B. Smith is in charge of the office on the grounds and has been ably assisted by C. G. Dodge, F. J. Lea, Ralph Stockton and Johnstone. W. H. J. Matthews, C. M. Lindley, Dick Foote, Charles F. Rush, Fred Green, Ernest Eusebius and scores of brother Elks. The ladies who have worked all day distributing clothing and helping to care for the stricken families are Mrs. W. B. Smith, Mrs. W. H. J. Matthews, Mrs. C. G. Dodge, Mrs. Lancherlin and several others.

Hundreds of people have sent out donations of food and clothing and among those who have been generous in their offers of assistance and in their donations are Mr. and Mrs. Oscar Lanning, Mr. and Mrs. Charles Egbert, Mr. and Mrs. E. J. Cotton, Mr. and Mrs. Frank Woodward, H. M. Wagoner, A. L. Frick. The people of Linda Vista have sent numerous donations and it is believed now that no one will be left unprovided.

Among the physicians who are giving their services at the Elks' encampment are Dr. McCue, Dr. W. P. Todd, Dr. A. K. Crawford, Dr. E. M. Ewer, with the assistance of the trained nurses. Several severe cases of prostration from the shock have been successfully treated, the patients are all reported as doing well and only one case, a pneumonia patient, had to be removed to Providence Hospital, since the nature of the case might render tent accommodations inadequate.

The commissary department is being well managed by William S. Morey, regular porter for the Elks with the assistance of a corps of fifteen helpers, and everyone is well provided with food both in quality and quantity. The Elks are to be congratulated in their splendid effort and their complete success in organizing a properly equipped tent city for the relief of so many unfortunate homeless ones.

**PACIFIC DEPARTMENT, 1112 BROADWAY, OAKLAND, CAL.**

Temporary offices of the National and Springfield Insurance Companies have been established in the office of Bryant & Dyer, Oakland city agents, 1112 Broadway.

Special agents and adjusters of these companies will be prepared to adjust and assist in the preparation of proofs of loss on policies involved in the San Francisco conflagration as soon as files of policies are received from the home offices, originals having been destroyed, of which due notice will be given.

**JOHN D. DORNIN, Manager.**  
**JOHN C. DORNIN, 2d Asst. Manager.**

It will be of interest to the merchants of San Francisco who are now establishing offices in this city, as well as others having business with the transportation companies, that the Union Pacific Railroad Company has located its offices at 44 San Pablo avenue, where full information will be accorded to the public with reference to both freight and passenger traffic. Messrs. Clifford and Booth, general agents of the freight and passenger departments, respectively, of that line, announce that their forces will cheerfully furnish strangers and others assistance with reference to any other assistance within their power.

where the homeless are camped members of the relief committee and the military went about distributing bread, coffee and canned goods.

There was a sufficiency for all. The night was a bit rough owing to a brisk breeze, but the people never for a moment lost heart. And what was lacking in physical comfort was made up in good cheer.

**PANIC STARTED.**  
A panic was started this morning by the rumor that another blaze had started in the Western Addition. Fortunately this was without foundation, and when this became known quiet was restored.

Mayor Schmitz and General Funston with their corps of aids are getting things in splendid shape. They have their schemes for relief and reconstruction down to a practical and working basis and hold out every hope for success.

**CONFERENCE IN MAYOR.**  
And the feature of it all is that the stricken people have every confidence in the ability of the Mayor and his representative of the Federal and State governments to cope with the situation.

**SPLENDID WORK.**  
The military is doing splendid work. While their methods may seem harsh at first to people who have never been subject to routine discipline, all are ready to submit to inconvenience affecting personal liberty, especially when they know these individual restrictions are for the good and welfare of the multitude.

With the fire practically over and the relief and reconstruction work well under way, there need be no fear for the future of San Francisco.

**Blood Poisoning.**  
Results from chronic constipation, which is quickly cured by Dr. King's New Life Pills. They remove all poisonous germs from the system and infuse new life and vigor; cure sour stomach, nausea, headache, dizziness and colic, without griping or discomfort. 25c. Guaranteed by Osgood Bros' drug stores, Twelfth and Washington streets and Seventh and Broadway.

## Big Building Undamaged

To Prospective Builders—From the experience we have with brick and stone building and the disastrous effects of the late earthquake on the great majority of them I would particularly call the attention to my patent interlockable cement block construction. Two years ago I constructed for Wempe Brothers (Inc.) Paper Box Manufacturing Company, Fifth and Adeline, the largest factory building in Oakland, 100 x 100, four stories in height standing on made ground, 40 large windows on each floor, with no inter-walls, large printing plant on second floor and other heavy machinery. The building stands today, after the severest earthquake that California ever experienced, uninjured. Why not think this over?

# Because You Are Not Made of Iron

But only of flesh and blood, and therefore cannot withstand the attacks of the many fatal diseases that make annual appearance at this season—because you need a good tonic, blood purifier and appetizer,—you should take Hood's Sarsaparilla.

The most advanced science has found in this great medicine a specific for which no substitute has ever been discovered. It makes one feel better, look better, eat better and sleep better. It makes people well and keeps them well.

## Hood's Sarsaparilla

Is the World's Greatest

### Spring Medicine

It tones up the whole system; purifies and renovates the blood; dispels languor and lassitude; cures dyspepsia and indigestion; creates a good appetite. Now is the time to take it.

**SPECIAL.**—To meet the wishes of those who prefer medicine in tablet form, we are now putting up Hood's Sarsaparilla in chocolate-coated tablets as well as in the usual liquid form. By reducing Hood's Sarsaparilla to a solid extract, we have retained in the tablets the curative properties of every medicinal ingredient. Sold by druggists or sent by mail. 100 doses one dollar. C. I. Hood Co., Lowell, Mass.

Nathan Franko is in charge of the party and every member of the company is reported safe. He is arranging for a special train East.

### PACIFIC MUTUAL VAULTS SAFE

BACON BLOCK, Oakland, Cal., April 20, 1906.

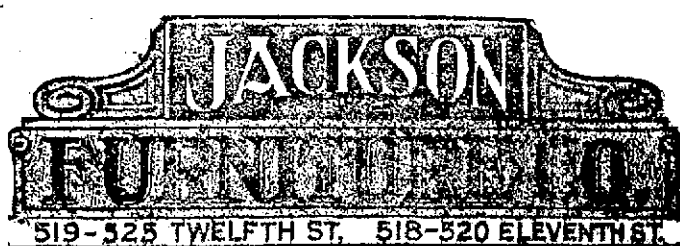

To the Military and Civil Authorities of the State of California, the United States and of the City and County of San Francisco, and to the Governor of the State of California, the Mayor of the City and County of San Francisco, and those in charge of the military at San Francisco:—The Pacific Mutual Life Insurance Company of California respectfully offers to co-operate in any and every possible and suitable way at the earliest practicable moment in throwing down the walls of its building on the corner of Montgomery and Sacramento streets in San Francisco, WITHOUT THE USE OF DYNAMITE, and respectfully requests that it be permitted to do so in order to save its vaults, which are still standing, holding its records, and enable it to afford as soon as possible to many of its policy holders. The loss of its records by the blowing up of its vaults by dynamite or otherwise would cause incalculable and irreparable loss and certainly would not now occur unless through oversight; or haste in the matter of throwing down dangerous walls.

Feeling sure you will appreciate this request to be permitted to co-operate and avoid the use of dynamite in the interest of the Company's policy holders scattered throughout the United States and elsewhere, but very many of whom were in San Francisco during the late terrible catastrophe, we remain,

Yours respectfully,  
THE PACIFIC MUTUAL LIFE INSURANCE COMPANY OF CALIFORNIA, WILBUR S. TUPPER, PRESIDENT.

## LOSS AT NAPA

NAPA, Cal., April 21.—The earthquake shock of Wednesday morning in Napa was the most severe ever experienced here, and great damage was done. Twenty business houses and twenty residences were completely wrecked. The large stone Miglaranca building, the new Hayes Theater building, W. W. Thompson's building, Revere Hotel, part of the Napa Opera House, California Wine Association wine cellars, the Christian Science Church, and Superior Court room, residences of E. N. Bunce, Mrs. H. H. Knapp and W. R. Lockard were badly damaged by the earthquake. The total loss in Napa amounts to \$50,000; in Calistoga, \$30,000; in Vallejo, \$50,000. Citizens of Napa today organized a relief committee of thirty men and have already collected \$3500 in aid of the people of San Francisco. The steamers Zinfandel, Napa City and St. Helena have taken 6000 loaves of bread, eighteen hogheads of water and 500 pounds of beans to San Francisco.

Company H of the Fifth Infantry of Napa, left by the steamer Zinfandel for San Francisco today, and a company of the Second Infantry regiment of Sacramento has been ordered to Napa by Governor Pardee, to assist in policing Napa.

Several people were seriously injured in Napa by the earthquake. Napa has had no telegraphic communication with San Francisco or Oakland since Tuesday night.

This morning the S. M. Tool fruit packing house, near Napa, was burned to the ground. Owing to the scarcity of water nothing could be done to stay the progress of the flames, and the building was soon destroyed. It is thought to have been set on fire by some person. The large engine and boiler in the east end of the building were destroyed, together with 10,000 boxes of packing fruit. The loss amounts to \$5000, with \$1000 insurance.

## NEWS AT CAPITAL

WASHINGTON, April 21.—The War Department has received the following bulletin dated San Francisco, 6 o'clock: "It is some foggy this morning, with some westerly wind. Conditions grow worse. Last night it was windy compared with the previous night and the accommodations in Oakland are at a premium. Those that are in the parks will suffer until they can get into houses. I think there are plenty of flats for rent, but the earthquake left them in bad shape. Fire worked us last night by spouting up at times and may get away from the houses at any time and endanger everything on water front. That is, the sheds and warehouses. There are very few left, probably fifteen and they are made of wood of the poorest kind. There seems to be no immediate danger from fire. Wind has died down and several warehouses and tugs are pouring water from the bay on the flames which are quite a distance from the ferry building where our office is located. The superintendent of the ferry building tells us that the building is now safe and there is no danger from fire."

### WERE NOT KILLED AT THE ORPHEUM

LOS ANGELES, April 20.—Artie Hall, an impersonator of colored girls, and a member of the August family of jugglers, playing an engagement at the San Francisco Orpheum, and who were to appear in Los Angeles next week, were crushed to death in the collapse of that theater, according to the story of lost property man from there who arrived in Los Angeles on the relief train last night. "I was just coming out of the theater," he said, "where I had gone to get some personal effects, and I met Miss Hall and one of the August sisters going in. No sooner had I reached the sidewalk and they were crushed down upon them. When the walls crashed down upon them, I saw John Morrissey, the manager of the theater and he was all right, but Harry Cindoff, the stage manager, received serious injuries, both legs being broken and his head badly cut, but I think he is not fatally injured. Men and women fought to get on the train, and some women rode on the tops of the coaches. Children were forgotten, and were running about crying for their parents. I shoveled coal for my passengers."

### CUSTOM HOUSE TO OPEN HERE

SACRAMENTO, April 21.—The August family of players who were reported killed, are safe in this city. The San Francisco Custom House will open today. Oakland, Calif. Ship have been ordered to report to Long Wharf. Collector Stratton will make his headquarters in Oakland for the present.

**WILL TAKE CHILDREN.**  
The following communication from Glen Ellen was received: To aid some unfortunate family, Mrs. James Clark and Mrs. J. W. Gibson of Glen Ellen will each take care of two little girls or boys and give them a home for several weeks if they will be sent up on the train.  
MRS. JAMES CLARK,

## DEATH IS WINNER

G. E. Henry of Oakland, in San Francisco yesterday, reports that workmen clearing away the debris of an hotel near the Mint could hear the cries of a man, but by the time they could reach him he was dead. He proved to have been imprisoned under a piano, which protected him from being crushed. In the same ruins the men came upon a trunk which were two infants. The side of the trunk fell out and disclosed nearly \$300 in money, which was taken in charge of by the police.

### GROCER'S GREED HIS DOWNFALL

SAN FRANCISCO, April 21.—"Famine prices" will not prevail in San Francisco if Mayor Schmitz can prevent it. E. F. Henning of 1701 Octavia street, a grocer, attempted to make money out of the distress of the public yesterday, and the matter was called to the attention of the Mayor. He instructed a lieutenant to take possession of the store and to distribute its contents to the homeless free of charge. Word of the Mayor's action passed from mouth to mouth, and in a few moments several hundred persons were in line waiting for provisions. Everything in the shop was given away.

### MANY WANT EMPLOYMENT

The Relief Committee has been informed that accommodations for several hundred persons may be had in East Oakland, Fruitvale and at Hayward; and it asks such members of the committee who have not received official notification, to direct refugees to these places. The Relief Committee desires all persons who can give employment to cooks, housemaids, gardeners, machinists and carpenters, to notify the employment department of the Relief Committee in the Chamber of Commerce. They also ask all parties desiring to secure employment to register at once in with the Relief Committee at the Chamber of Commerce. The financial committee of the Citizens' Relief Committee requests all business persons not to give money or checks to anyone unless satisfied that the parties are duly authorized to collect. The Finance Committee members are as follows: James P. Taylor, Harry G. Williams, Theo. Glen, J. Edson, Dr. J. Pearson, E. G. Morrow, and others. The committee also asks donations of food and clothing, as the same are urgently needed. Send all such to the Chamber of Commerce for distribution.

### KILL HORSES TO FEED LIONS

SAN FRANCISCO, April 21.—Two horses were killed at the Chutes' zoo this morning to feed the animals of the

menagerie. The lions and tigers were roaring from daylight yesterday morning and the other animals were terror-stricken and fighting among themselves. The Chutes were not damaged by the earthquake.

### ARTILLERY FORCED FROM BARRACKS

SAN FRANCISCO, April 21.—The fine sets of brick barracks at the Presidio have been abandoned by the heavy artillery troops who are camped on the parade ground. The quarters are not considered safe and will be condemned.

## TIVOLI SINGER IS SAFE

LOS ANGELES, April 20.—Miss Beattie Tannehill, leading soprano at the Tivoli Theater at San Francisco, reached Los Angeles today.

"I was asleep in the Hotel Langham, Ellis and Mason streets, when the shock came," said Miss Tannehill. "There were at least 100 persons in the building at the time. At the first shock I leaped from bed and ran to the window. Another upheaval came and I was thrown from my feet. I groped my way out of the room and down the dark stairway. Men, women and children, almost without clothing, crowded the place, crying and praying as they rushed out.

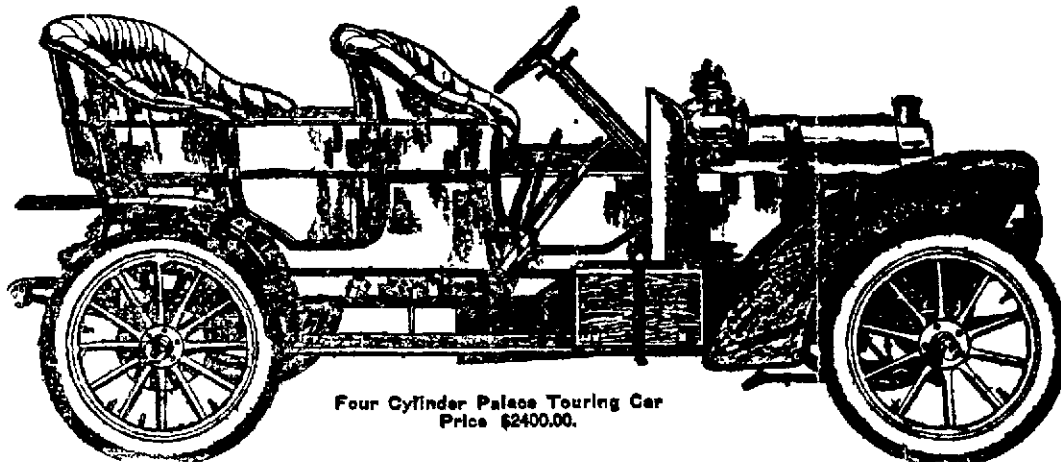

"When outside I saw the streets filled with people, who rushed about wringing their hands and crying for carriages. Proprietor Diller of the hotel offered a cabman \$50 to take himself and his wife to the residence heights, but he refused. He wanted more money. We finally secured a carriage by paying \$100. Fire was raging at this time and people were panic-stricken.

"After getting outside of the danger region I walked back, hoping to aid some of the unfortunates. I have heard about big prices charged for food. I wish to testify that the merchants on upper Market street and in nearby districts threw open their stores and invited the crowds to help themselves. The mobs rushed into every place, carrying out all the goods possible.

"I saw many looters and pickpockets at work. On Mason street a gang of thieves was at work. They were pursued by troops, but escaped in an automobile."

## OLDSMOBILE

Four Cylinder Palace Touring Car  
Price \$2400.00.

The Oldsmobile Four Cylinder Touring Car (Model S) is making the hit of the season. It has proved itself equal to every claim made for it—and is selling even beyond expectation. Every purchaser is more than pleased with it, because of its extreme quietness without loss of power, and for its wonderful flexibility and range of speed without changing gears.

It is made by the best equipped factory in the country, having long experience, and is just as well built as though it sold for \$3500.00 instead of \$2400.00.

It is speedy to the point of safety, has tremendous power, 26 to 28 h. p., 106 inch wheel base, 4 1/4 inch bore, 4 3/4 inch stroke, sliding gear transmission, weighs 2300 lbs., chainless (shaft driven by bevel gear) and the price is only \$2400.00 complete, including lamps, horn and tools.

The way to know about it is to ride in it. Fill out the demonstration coupon and have the car shown to you.

OLDS MOTOR WORKS, Lansing, Michigan.

# GUARANTEED LIQUOR CURE

No Detention from Work or Loss of Time—Desire for Drink Destroyed by Orrine.

When one of our most reliable druggists makes a positive statement that he will guarantee to cure the liquor habit, Orrine is used in accordance with directions. For return money, it shows his great faith in the treatment. It is in this way that Orrine is sold by the leading druggist in nearly every city and town. In every box is a registered guarantee which certifies you to a refund of your money if Orrine fails to effect a cure.

No other cure for the liquor habit has been sold in this way and the remarkable guarantee shows how much superior Orrine is to the ordinary sanatorium or hospital treatment. There is no detention from work or loss of time when Orrine is used. It destroys the desire for liquor, so that the drink will not be missed, and also cures the damaged digestion, weakened nerves and all other effects of excessive drinking, restoring the patient to perfect health.

Orrine is prepared in two forms. No. 1, the secret remedy which can be used in food or drink without the knowledge of the patient, and for those who take the remedy of their own free will. Both forms are absolutely guaranteed to cure or they will cost nothing. Treatise on how to cure drunkenness free on request. Orrine Co., Washington, D. C. The price of either form is \$1 a box, making the cost of the complete cure less than one-tenth what is usually charged at sanitariums, with a guarantee that the expense will be nothing unless a cure is gained.

Orrine is for sale by the Owl Drug Company, Thirteenth and Broadway.

## As Ye Sow, Ye Shall Reap.

The heart of the world is touched with sympathy for San Francisco, and generous offers of assistance are coming from every quarter of the globe. Money in large amounts is being subscribed in every city and hamlet in the land, while trainloads of provisions are being hurried by every railroad leading to California. Workers, nurses and physicians are coming with the food, clothing and medicines.

For all this the people of the stricken cities are grateful. Their hearts are touched more by the deep sympathy than by the offers of material aid, though they appreciate the prompt and liberal assistance extended to relieve destitution and suffering. Californians of every degree are thankful for the kindness that is being shown them, and they will not forget the friends who came to their succor in time of need.

Yet why should not the hearts and purses of the civilized world be opened to San Francisco, plunged to the depths of woe and desolation? Has not San Francisco ever been the first to hear the call of distress far and near? (The readiest with material aid, the warmest in expressions of sympathy, the most liberal of givers.) When yellow fever smote the cities of the South, San Francisco poured out her gold and pity; when Charleston was shaken in ruins by earthquake, all California was quick to respond; when Chicago and Boston were burned no community on earth gave so much proportionately as San Francisco; when Johnstown was swept away by flood the first city to start a relief fund was San Francisco.

It has always been so. The famine-stricken in Ireland, the flood sufferers of the Loire Valley, the starving millions of India, the earthquake smitten in Japan and Martinique, the drouth sufferers in Austria, the starving peasants of Spain, all have reason to remember with love and gratitude the generosity of California, and of San Francisco in particular. During the Civil War the sanitary fund for the sick and wounded in the hospitals, raised in California and Nevada, was an outpouring of wealth and pity that made the world applaud.

For fifty years San Francisco money and sympathy have reached out to relieve and console distress whenever calamity visited any section of the globe, gone freely and generously to every land and people.

Is it any marvel, then, that the world turns with open hands and tear-dimmed eyes to San Francisco in the hour of her affliction? The bread cast on the waters is returning. San Francisco is reaping the bounty she has so generously sown. She has loved and succored her fellow men, and they remember it in the day of her tribulation. Mankind is neither ungrateful nor forgetful of kindness, thank God!

## The Revival Has Begun.

The situation is hourly improving. Confusion is giving way to organization, and definite purpose has taken the place of panic and indecision. Before nightfall the financial situation will be adjusted and the temporary stringency lightened. Within forty-eight hours a flood of cash will be let loose, and general business resume its wonted channels. The leading mercantile firms are securing temporary quarters in Oakland, and preparations are being made to rebuild on an extensive scale. A spirit of confidence pervades the community, largely due to the official announcement that the contents of all the San Francisco bank vaults are safe, and that the bankers and underwriters will present a united front to aid in reconstruction and the immediate resumption of business. Men are being employed in large numbers, and in the meantime the prompt decision of many of the heavy property owners to rebuild at once has sent an encouraging thrill to all hearts. Each development proves that the wreck is not nearly so complete as popular imagination pictured it, and there is no longer any feeling of dismay or faltering. The note of confidence is heard on every side. A spirit of feverish energy is already manifesting itself as men take a fresh grip on hope and courage, and lift their brave spirits above personal griefs and disaster. The crisis is past, and from now on everything will go onward and upward with a rush.

Let us take our hats off to the Congress and President of the United States. A readier and nobler response to the call of distress could not have been made. The moral effect of the government's prompt action is worth more than the money, which will itself be a tremendous aid.

The municipal authorities should make a prompt and thorough inspection of all chimneys and flues throughout the city, and condemn such as are found unsafe for use, for many ignorant or careless people are building fires in unrepaid chimneys, thus creating a general menace to the community.

Blessed is he that owned nothing, for he still possesseth his inheritance and can rejoice in his patrimony.

## Lyrics From Kaweah Township.

As a singist the poet lariat of the Visalia Delta is a successist. Daily he enriches his editorial columns with bits of verse that would make old Omar Khayyam, were he alive, feel like thirty cents in Confederate money. His recent "Ode to the Flap Jack" is the finest piece of verse carpentry that has come out of Kaweah Township in a coon's age. Not another songsmith for miles around could touch it with a forty-foot pole. But he has done some recent stunts on his Pegasus that fairly eclipse that noble quatrain, "The Waddle of a Goose," which earned him name and fame from Exeter to Goshen and back again, and set every dog in Visalia to barking in appreciation of his poetic genius. For instance, note the front and rear elevation of this gem on "Looking Ahead":

"The good old summer time is near.  
Behold the grandeur of the trees!  
How pleasant 'tis to be out of doors  
And sniff the poppy-perfumed breeze!"

Then take a pipe at this drop of crystallized delight labeled "The Summer Girl":

"Here's to the summer girl, who reigns  
Unchallenged queen supreme!  
A thought about life's serious things  
Ne'er mars her pleasant dream."

But before you ring the bell and switch off, cast your eagle eye over this hot number:

"He long ago began the task,  
And though the scheme seems risky,  
He still is striving night and day  
To put down all the whisky."

Can any one contemplate these sparkles of genius, these flashes of poetic lightning, and fail to understand why Alonzo Melville Doty, the po-8 aforesaid, is voted just the cutest editor in all the San Joaquin valley? If any further testimonial to his genius were needed we might point to his "Lines on a Woodtick," his "Apostrophe to the Pimple on Her Nose," or that stirring battle song, "The Hot Tamale," but all who have been fortunate enough to collide with one of his stanzas will cheerfully admit, in our opinion, that he strips the rag off the bush as the boss moulder in a poetry foundry. Still we cannot close without testifying to our high appreciation of that high-flavored, delicate bit of poetical personification entitled "I Smelt Onions on Her Breath." There, my countrymen, is real poetry for you. It will make your hair curl, and when you read it, take our word for it, you can sniff the onions.

THE TRIBUNE has not deemed the period of stress we are passing through a time for boasting, and therefore declines to imitate the cheap lying and bragging of a corporation organ printed in one of the outlying suburbs. This office has been going night and day ever since the earthquake. Its plant was uninjured, though it was deprived of power for a few hours by the shutting off of the electric current from its motors. It has neither asked nor received any accommodation from any other publisher, but, on the contrary, the facilities of THE TRIBUNE have been at the free disposal of all the San Francisco newspapers. THE TRIBUNE'S plant is in perfect working order, and, moreover, is the largest and most complete newspaper plant in California outside of Los Angeles. It has not deemed it worth while, or decent, or honorable, to claim an advantage from the misfortunes of others, much less lie about its contemporaries and make vain, false boasts of achievements never performed. True, THE TRIBUNE has constantly given the public the first, most authentic and complete news of the recent calamity, but of this the people are well aware without being told. Its performance speaks for itself. Each issue is a refutation of the empty boasts of a cheap braggart.

## CHIPS FROM OTHER BLOCKS.

The Connecticut law which is the easiest to obey and the hardest to break is the statute which forbids a person to catch more than thirty brook trout in one day.—Hartford Times.

Secretary Wilson says there will be no more crop failures. Still there will be droughts and chinch-bugs and all kinds of crop-destroying evils in the Chicago grain pit as heretofore.—Washington Post.

The defeat of Senator Berry by Governor Jeff Davis proves that there is a vast work to be done in Arkansas by the public school system.—Houston Post.

Democratic politicians would like Bryan to come back and see if he cannot get up a row that wouldn't be quite so bad as the ones they are having.—New York Mail.

A Baltimore paper, refs to "Hamlet," the well known play by "W. Shakespeare." We hope we do not err in assuming that our contemporary has reference to the W. Shakespeare who formerly resided at Stratford-on-Avon, England.—Chicago Record-Herald.

Twelve months ago nobody on earth would have believed that any Rockefeller oil company could be put out of business.—St. Louis Post-Dispatch.

Secretary Shaw, who contends that "business" is for the purpose of government, will find all the trusts joyfully agreeing with him.—Kansas City Star.

## SOME PASSING JESTS.

"I thought you made a resolution to stop drinking' during Lent?"  
"Well—er—I'm just taking this for medicinal purposes."  
"Nonsense! You're not sick."  
"Yes, I am. I'm sick of the resolution I made."—Philadelphia Press.

Towne—Whenever you hear a politician declare that "every man has his price" you may rest assured that he's one of them.  
Browne—Not necessarily. He may simply be calling attention to the fact that he hasn't got his yet.—Philadelphia Press.

## WOMEN'S WOES

Oakland Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up" must attend to duties in spite of constantly aching backs, or headache, dizzy spells, bearing down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with aching backs and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys and what it helps and cures the kidneys and is endorsed by people you know. Mrs. I. Stewart, of 887 San Pablo avenue, Oakland, Cal., says: "I saw Doan's Kidney Pills advertised in the paper and a test was procured for me. My trouble was backache which came on me at times and caused me much suffering. They helped me very much and soon completely relieved me. They have my endorsement." For sale by all dealers. Price 50 cents. Foster-McMullen Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Caught Cold While Hunting a Burglar.

William Thomas Lungerman, privinical constable at Chaplain, Ontario, says: "I caught a severe cold while hunting a burglar in the forest swamp last fall. Hearing of Chamberlain's Cough Remedy, I tried it, and after using two small bottles I was completely cured. This remedy is intended especially for coughs and colds. It will loosen and relieve a severe cold in less time than by any other treatment and is a favorite wherever its superior excellence has become known. For sale by Cargood Bros., Broadway, corner of Seventh and Washington, corner of Twelfth.

# The Great Imperial Encyclopedia and Dictionary

is now Complete. THE LATEST, GREATEST, LONGEST, BEST AND CHEAPEST OF ALL AMERICAN ENCYCLOPEDIAS. Delivered to you AT ONCE for only a FEW CENTS a day

28,000 Pages 7,000 Illustrations 40 Volumes

## Former Prices Prohibitive

Heretofore the best Encyclopedias have been put on the market at abnormally high figures, ranging from \$60 to \$150—prices which only the very rich could afford to pay. In order to overcome this obstacle the Pacific Newspaper Union has made arrangements with the publishers of the New Imperial Encyclopedia for an entire edition of that splendid work, which will be distributed to the public at about the normal cost of manufacture and on terms within reach of every income.

## Direct From Binder to You

In entering upon this great educational enterprise, the Pacific Newspaper Union acts as a purchasing agent, representing both the publishers and the public. On account of our immense purchasing and distributing powers, we are able to guarantee the sale of a very large edition. The plan is to distribute it by means of a great Co-operative Club, which will entirely eliminate all middle profits. Complete sets are shipped direct from the binders to purchasers. As a result of this great saving, those who join the Club are able to secure this newest and best reference library at a price heretofore unknown of in the annals of publishing.

## HOW TO GET A SET

It is impossible to describe in this limited space the plan of this great work. The plan of the Club and the plan of the work are so simple and so easy to understand that every man, woman and child can see the benefit of it. The complete Encyclopedia delivered to them at once, and pay for it at the rate of a few cents a day. If you are interested, write to-day for full particulars. Do not put it off until tomorrow. Tomorrow may be too late. Only one edition has been authorized for, and when it has been distributed no more applications will be received. This Club was organized for your benefit. No one will be to blame but yourself if you do not get an Encyclopedia now while the opportunity is here. Take of the coupon and mail it to us to-day. An opportunity like this may never occur again in your lifetime.

## WANTS HER HUSBAND

Mrs. W. L. Farmer, whose home was at 554 Stevenson street, San Francisco, wants to get some word from her husband, W. L. Farmer, who was employed as janitor at the Crocker-Woolworth bank. He had left his home before the earthquake, and his wife with her three children were forced by the fire to flee before he got back.

Mrs. Farmer has been given a home by Mrs. S. W. Lashus at 1620 Ninth street, West Oakland. She is distressed with fear that her husband was killed or injured, and any work will alleviate her suspense.

# SHORT INTERVIEWS ABOUT THE DISASTER

Ed Thompson, business agent of the joint District Council of Carpenters, was one of the special policemen at Idora Park Thursday evening. "We had no trouble at all, except that we had to keep watch on a couple of men who were out of their head. One of them had a gun, and he got up to look for him about every hour in the night. After he would walk around a few minutes looking into the faces of others he would get drowsy again and lie down anywhere. The other was looking for a schoolhouse that he evidently had attended in his youth, and after he had looked awhile we would direct his attention to the light in his tent and he would conclude that that was it."

One of the greatest troubles to many who were homeless was the thought that they could not get out of San Francisco," said W. J. Barrett of the Wright Wire Company. "Everyone we met told us we could not. It was more than a day before we found differently. Another thing was the scarcity of food. All I could get for one whole day were three oranges. We had eaten two when a man and his wife came along and we offered them the last one but they wouldn't take it. I've already got a business place on this side and I am going right to work again."

"Wednesday I went out quite a distance on McAllister street to get a room when I asked the woman what it would be and she said '\$3 a night.' I went across the street where there was a sign, 'To Let,' and a little old woman came to the door when I asked her what 'To Let' always had '\$3 a month.' 'How much will it be by the night?' I asked. 'Well, would you like a night to too much?' she asked. I told her I was willing to pay \$1 a night but she wouldn't take more than 50 cents. The next morning she asked me to have a cup of coffee and other breakfast with her and she didn't want to take any pay for it but I gave her 50 cents."

"At the corner of Fourth and Clay street," said E. H. Pratt, who was over on Thursday, "a man had run a stovepipe out over a window and built a fire. The wind was blowing against the pipe and throwing the smoke and fire up against the eaves not more than two feet above it and already it had blistered the paint, so he was compelled to take it down."

H. H. Clark Jr. took it to the street on Saturday night in the third story of a building at the corner of Washington and Montgomery streets when the smoke came out the side wall went out and he came over yesterday. "The floor of the outside the bed caught fire and it was hung and I managed to get out full of money, my trunk and nearly everything else I had when I was on the stairs. I was on the stairs the stairs gave way and I fell to the first floor two stories. I was unconscious for some time but revived with some bad bruises. As I went through the streets I saw all but one of fourteen horses, belonging to the peddlers, killed at the 12th market. Commercial street, by a falling wall, the fore legs of the other were broken."

I was stopping on Third street near

# CITY IN DARKNESS

SAN FRANCISCO, April 21.—For the first time in its history, San Francisco has had its taste of martial law. When darkness fell upon the desolated city, every inhabitant of the houses that were left standing groped about their homes in darkness. Early in the evening the survivors of the terrible calamity were cooking their suppers on fires built in front of their houses. The wind fanned many of these fires into nasty blazes, and for a time it looked as if many new fires would be started. But Chief of Police Jerry Dinan issued orders that all fires must be put out, and with a score of assistants and the regulars and the soldiers, the building of fires in front of houses was summarily suppressed.

In all of the homes left standing, no lights were allowed to be burned. In places where persons decided to burn lights contrary to the orders of Chief of Police Dinan and the militia, knots of citizens formed and forced the occupants thereof to extinguish their lights. In every building in San Francisco, except the hospitals, all lights were extinguished. The soldiers patrolled the streets and no citizen was allowed to pass from one block to the other except by written permission of Chief of Police Dinan. Putting the city under martial law had a salutary effect upon many persons who had imbibed freely of liquors during the day. The orders were to shoot to kill if any of the various details of strict martial law were disobeyed.

Headquarters on Eighth street with his head encased in bandages a brick chimney having fallen on him.

Mr. O'Connor is at the same place with his right arm in a sling. He asked some men to give him a lift to climb a wall to help to save some property. Too many took him for a joke and he was left to fend for himself. He was caught where he had expected to find a wall and he was left to fend for himself.

Sheik Hadji Tahar, head of the Arabians in San Francisco after giving away all his own money, nearly to keep his brethren came to Oakland, Friday afternoon to fix up a place for them at 227 Third street and yesterday he rented there are about 1000 Arabians.

Among the sights and scenes of the catastrophe was a little fair-haired woman standing on the curb crying. When asked what was the matter she merely pointed to the collapsed house in front of her and said, "My papa and mama are in there."

An old man and woman each loaded heavily with a basket of goods they were

# NEWBRO'S HERPICIDE

Is the original remedy that "kills the dandruff germ."

WITHOUT dandruff the hair must grow luxuriantly, except in chronic baldness, which is incurable. Dandruff is a contagious disease caused by a germ or microbe. To cure dandruff, this germ—a tiny vegetable growth—must be destroyed and kept out of the scalp by Newbro's Herpicide.

## A WOMAN TO BE PRETTY

A woman to be pretty must have pretty hair. "Beautiful locks have a subtle charm, for the poet says, 'fair tresses man's imperial race ensnare.'" The unpoetic and intensely real dandruff microbe makes the hair dull, brittle and lusterless with later dandruff, itching scalp and falling hair. Newbro's Herpicide destroys this enemy of beauty and enables the hair to resume its natural luster and abundance. Almost marvelous results sometimes follow the continued use of Herpicide. Overcomes excessive oiliness and makes the hair light and fluffy. It contains no grease or dye. Stops itching of the scalp almost instantly.

Discriminating ladies who have used Newbro's Herpicide, speak of it in the highest terms, for its almost magical effect upon the scalp, and also for its excellence as a regular hair dressing. It is delightfully fragrant and refreshing.

"I have found Newbro's Herpicide excellent for the hair. The first application stops itching of the scalp and it leaves the hair soft and silky."

# A Common Sense Talk.

AS we get health and happiness from the sunshine, so do we get strength from the woods and fields as Nature furnishes it to us. Just as mould thrives in darkness, so does disease. If all the animal kingdom, including human beings, lived out in the good air and in the sunshine, close to Nature, without taking foul air into their lungs and improper food into their stomachs, the percentage of sickness in this world would be reduced to a minimum—but civilization has brought its ill to mankind, and to correct these ills we must go to Nature for the remedy. We advise nothing but what is right when we recommend to you a medicine which is purely vegetable and made from native medicinal roots found in the depths of our American forests. It is a medicine the makers of which are not afraid to tell you of its composition. We recommend Dr. Pierce's Golden Medical Discovery for a run-down system in all cases of impaired vitality, and we give you a few extracts from well-known and recognized medical authorities in regard to the ingredients contained in this medicine, which can confidently be depended upon for the most positive curative action in all weak states of the stomach accompanied with distressing indigestion or dyspepsia.

This medicine takes its name from Golden Seal root (*Hydrastis Canadensis*), which is one of its principal ingredients.

We take up each ingredient of the "Golden Medical Discovery" and quote our authorities for its use under the headings of Golden Seal root, Queen's root, Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure Glycerine.

## Prof. John King, M.D. says:

"An alternative (blood-purifier) unsurpassed by any other of the known alternatives, most successful in skin and scrofulous affections. Beneficial in bronchial affections—permanently cures bronchitis—relieves irritation—an important cough remedy—coughs of years' standing being cured. Acts in blood-making and nutrition, and may be taken without harm for long periods."

R. Bartholow, M.D., L.L.D., says: "Stillinger has long been in repute as an alternative and employed for scrofula in its various forms. Most satisfactory results have been obtained from its use in syphilis, rheumatism. Recommended in habitual constipation, torpidity of liver, jaundice, piles, ascites (dropsy), due to hepatic (liver) changes or obstructions."

**STONE ROOT (*Collinsonia Canadensis*).**

"Alternative, tonic, stimulant. Valuable in laryngitis—'ministers sore throat.' In diseases of stomach and intestines—improves appetite, promotes flow of gastric juice, tonic effect upon organs involved. A good remedy in indigestion, dyspepsia, chronic gastritis, increasing the secretion from kidneys and skin."—American Dispensary.

D. W. H. Hale, M.D., Professor Materia Medica in Rush Medical College, Chicago, says: "There is no doubt of *Collinsonia*'s action on the urinary organs. It has cured disorders supposed to be due to catarrh of the bladder and dropsy from deficient action of the kidneys. Cures irritation of the cardiac (heart) nerves, with rapid, regular or irregular beating. Useful in valvular diseases."

**BLACK CHERRYBARK (*Prunus Virginiana*).**

Roberts Bartholow says: "Wild Cherrybark is an excellent stomach tonic; it has long been held in great esteem in domestic practice as a remedy in catarrhal states of the bronchial mucous membrane and in phthisis (consumption)." "The drug is much used as an ingredient in cough mixtures."

Professor F. Ellingwood, M.D., of Bennett Medical College, Chicago, says: "The tonic influence of this agent is more markedly apparent when it is administered in disease of the respiratory apparatus (breathing organs) of a subacute (mild or lingering) chronic character. A common remedy for chronic coughs, the cough of nervous patients without apparent cause; is popular in the treatment of mild cases of phthisis. Palpitation from disturbed condition of the stomach is directly relieved by it."

**MANDRAKE ROOT (*Podophyllum Peltatum*).**

"Certain, sore cathartic; leaves bowels in improved condition. A gentle stimulant tonic; improves the appetite. Particularly valuable in dyspepsia, gastric and intestinal catarrh. Beneficial in some affections of bladder."—American Dispensary.

"Recommended in biliousness with marked inactivity of the liver, sallow skin and conjunctiva (eyes), constipation, dry stools and bloated bowels, highly colored urine containing uric acid, or urates in great excess. Is given in jaundice, gall-stones, piles; is an alternative in plethoric (full-blooded) conditions, in skin diseases and in scrofula and syphilis."—F. Ellingwood, M.D., of Bennett Medical College.

**BLOODROOT (*Sanguinaria Canadensis*).**

"Stimulates digestive organs, increases action of heart and arteries—stimulant and tonic. Very valuable as a cough remedy—acts as a sedative—further valuable as an alternative."—American Dispensary.

"Overcomes congestion of the lungs, after severe cold in the chest from exposure. Given in bronchial coughs, in membranous croup. It equalizes the circulation of the entire system, inducing warmth in the skin and in the extremities. It will assist in overcoming hepatic (solidification) of lung structure and restoring normal tone and normal functional action."—F. Ellingwood, M.D., of Bennett Medical College.

trying to save and who were utterly exhausted, were overtaken by a youth of 16 who with their permission took the bundles from both and carried them to their destination. They offered him money for his kindness but he refused it.

**SOCIALISTS.**

The relief organization of the Socialists and I. W. W. organizations has established headquarters at Socialists Hall, 405 Eighth street. Provisions are coming in bedding has been procured, and accommodations are prepared for 100 people. A large delegation from San Francisco is now quartered on the premises.

# WHOSE SAY-SO IS BEST?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone and exclusively as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from the pen of a disinterested medical writer. However, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their own words and make-what-claims, but are based upon the testimony of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence and are enabled to judge for themselves. He has written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines. Among these ingredients we find such medical lights as Prof. Finley Ellingwood, M.D., of Bennett Medical College, Chicago; Prof. Hale, of the same city; Prof. Jno. M. Roberts, M.D., of Cincinnati; Ohio; Prof. Grover Coe, of New York; Dr. Bartholow and scores of others equally eminent.

The writings of these have been for the various medical journals and for publication in standard medical books for professional reading and instruction, and hence are the most reliable of all. It is Dr. Pierce's medicines, since the writers did not know that they were endorsing and recommending articles that enter into the composition of these medicines and had no personal interest in over them. Hence, their great value as testimonials.

A brief synopsis of a small part only, of the curative value of each of the several ingredients entering into Dr. Pierce's Golden Medical Discovery—the world-famed remedy for weak stomachs, indigestion, dyspepsia, chronic gastritis, biliousness, indigestion of stomach and bowels and kindred ailments—has been compiled for publication in book form. These extracts also treat of the several ingredients entering into the composition of Dr. Pierce's Favorite Prescription for weak, over-worked, "run-down," debilitated, nervous women, who find it a precious boon.

For a full and complete address by postal card or letter, with request for this little book, to Dr. R. V. Pierce, Buffalo, N. Y., and it will be mailed free to you.

Read what Dr. R. V. Pierce, Buffalo, N. Y., has to say about the value of the "Golden Medical Discovery" cures catarrh of the nasal passages, even though of years' standing. It is a most potent and powerful remedy for this terrible disease, and generally, successfully, treated rapidly. The cure will be facilitated if Dr. Sage's Catarrh Remedy be employed to cleanse out the nasal passages at the same time that the "Discovery" is employed for the constitutional treatment.

The "Discovery" is equally efficient in the cure of catarrh of the stomach and bowels, and in cases of ulceration of these organs. Read what Doctors King, Keudder, Grover Coe, and others say of the curative properties of Golden Seal root and of Stone root in cases of the above ailments. Both these roots are important ingredients of "Golden Medical Discovery."

From the writings of these same authors you will learn why the "Golden Medical Discovery" cures chronic, lingering ailments of the throat and bronchia attended with hoarseness, cough, soreness and kindred symptoms. Several of the ingredients of the "Golden Medical Discovery" are highly recommended for their specific curative effects in laryngitis or "speakers sore throat," as well as in indigestion and constipation and in cases of persons in whom the system is badly treated, are apt to end in consumption.

From the same little book you may learn why Dr. Pierce's Favorite Prescription

# HUNGRY THOUSANDS ARE BEING FED

## All Kinds of Provisions Are Given to Starving People of San Francisco.

SAN FRANCISCO, April 21.—At the Y. M. H. A. building on Page Street near St. Van and at the Park Lodge, thousands and thousands were fed from morning to night. All kinds of provisions and clothing, meat, vegetables, bread, canned goods, tea and coffee and the like were handed out in abundance, not a soul being turned away.

Dr. Voorsanger appeals to all citizens who own teams of horses to come to the front with him at once, as the committee has experienced quite a little difficulty in moving the supplies. This morning 150 Stanford students will traverse the various districts of the city and hand out supplies from door to door and at the same time additional ration stations will be established in connection with those already in operation.

Dr. Voorsanger suggested that a United States army officer be

mitted reported that yesterday's local subscription had reached the grand total of \$28,250. When Mr. Pheasant concluded his address Mayor Schmitz announced the following elegant donations amid great applause: The Union Trust Co. of Oakland, \$50,000 to General Lunt. The United Railroads, \$75,000.

Marcel Cerf, Chairman of the Committee on Refuge for the Homeless, stated that temporary structures will be erected in Golden Gate Park for the protection of the homeless at once. Major McVoy, of the United States army, is leaving out a sanitary camp. Work on this has already begun and will be rushed as rapidly as lumber can be secured.

The camp will be under the supervision of an officer of the Engineers Corps of the United States army and the Chief of the Army Medical Staff will be in charge of it as sanitary officer. Some lumber was delivered there today. The conditions amongst the homeless in the park, Chairman Cerf said, were excellent but he feared that there would be considerable suffering in the Mission District where the Committee have not been able to reach all the people in fact that under present conditions it was practically impossible to take care of all the people.

He stated that costs were very

necessary and expressed the fear that unless these were quickly forthcoming there might be an epidemic. A sub-committee was appointed to impress all vacant buildings and all deserted houses, that after examination, should prove to be safe.

### MANY HOMELESS.

Berkeley, said Chairman Cerf, has accommodated 2000 homeless people and had sent word to the authorities that it desired to take care of 4000 more. Alameda has room for 3000 and Fresno telegraphed that it wished to provide for 500 and asked that that number be sent, for which the Southern Pacific would furnish transportation.

H. E. Preeden, manager of the Standard Oil Co., said that the city of Richmond could take care of 500 people and that he would transport them there tomorrow at 10 and 12 o'clock, leaving from the Fulton Iron Works.

In regard to the report of the Committee of the Restoration of Water, Mayor Schmitz announced that there had been some conflict of authority today between the firemen and the military with reference to the dynamiting of buildings and that he personally went to the scene and took the responsibility upon himself to make a deal line along Alameda avenue by destroying whole blocks of buildings.

## SEIZES SUPPLIES

An aggravating instance of the interference of the military with the relief work of the city was reported today by THE TRIBUNE. A man in charge of a relief work in that city had been carrying a load of food for the sick in the city.

He has great difficulty in getting his stuff here at all only by paying a large sum of money to get it past the duty of the men in charge of the government boat on which he had loaded his provisions.

Even then he had to go a large amount of the stuff much of which was being confiscated by the military of the boat for use on their own tables where Mr. Spencer saw his chest of drawers.

The United States boat Vanguard in command of Captain O'Brien was the vessel in question. Mr. Spencer did not know the name of the man to whom he talked but says he was apparently in charge of affairs at that time and was either the captain or one of the officers.

This man refused point blank at first to let him have his provisions which had been entrusted to him, openly stating that he wanted them for his boat.

Mr. Spencer, who was at the head of a big relief committee in Galveston during the horror there losing his life at that time, states that the people of San Francisco, knowing of the story of the boat in San Francisco, on Thursday evening then they set to work in earnest and by seven o'clock the next morning a launch with two tons of the best provisions was cooked up to deliver the night and composed of the best of the city was started for Oakland in charge of Mr. Spencer and a committee of three others.

Arrived at Black Point the committee found a member of the Oakland relief committee who instructed them to transfer their stuff from the launch to the government boat Vanguard where it would be conveyed to headquarters.

Not satisfied with this, however, Mr. Spencer sought out the headquarters where upon finding a scarcity of teams he proceeded to procure one himself. He went to a coal yard on the water front and offered to pay for a team but the proprietor refused to accept anything for it.

"I'm at the boat the officer in charge refused to give up the goods. No," said he "I want them for my boat here."

"I don't know so," said Spencer. "Well, we will see about that. These things are at my disposal not yours and they are going to the people of Oakland."

"You have no credentials," replied the man. "I don't know so."

"No and I had no credentials when I turned the goods over to you either," said Spencer. "You accepted them and you gave me no receipt. Here is my card. Now give me yours and we will get to the bottom of this thing."

The man refused to give his card, but ordered one of the men near by to give the provisions to their trustees. Going below to see about them, Mr. Spencer saw the same identical things he had prepared all ready for consumption adorning the table on the boat. When he came to count up there were sacks of boiled ham, boxes of oranges, eggs, fancy buns, baked to order, etc., missing.

Mr. Spencer states that he does not care to have the men on the boat punished, but desires that something be done to see that a repetition of this state of affairs does not occur.

## JIMMY BRITT'S SISTER IN SHADOW OF DEATH

SAN FRANCISCO, April 21.—While on her deathbed and last sacrament having been administered to her, Miss Mamie Britt, sister of Jimmy Britt, the famous pugilist of this city, was repeatedly moved in order to escape the fumes. She was removed to the St. Francis Hotel at Fourteen and a dozen streets by her mother and brother Jimmy, just as the fumes were about to close upon the last home of Third and Bryant streets. Within a short time the fumes were

## BREAD SUPPLY IN DEMAND

SAN FRANCISCO, April 21.—There was an enormous demand on the bread supply in the bakery all day long and far into the night. When the delivery rider was accidentally shot

while on his rounds, the ranks were broken up and it took the soldiers on guard several minutes to get the bread and milk trucks.

The bread supply in the bakery fell out very well and thousands were left at the source. Still, it was very plain in the afternoon but some of the bread was

## NURSE IS HEROINE

SAN FRANCISCO, April 21.—Miss Catharine Parram, volunteer nurse at the Jefferson Spaulding hospital, performed one of the most noble deeds of her life, which has been told of those who have lived to save others from perishing in the flames. Miss Parram, who is 18 years old, will leave in a few days for a nursing school in which she will be in charge of a ward of 40 patients. Mrs. Parram of 410 Hyde street, was the woman rescued.

The residence was directly in the path of the flames. The patient was helpless and there were no means of escape. The volunteer nurse, Miss Parram, went out beyond the Mission district and to a Catholic church which she knew to be there. The heavy door was pushed by the determined young woman in the entire distance back.

The return trip was made none too soon for the flames were getting dangerously near Mrs. Parram's residence. When the
